PROFESSIONAL SUMMARY

I am a motivated and detail-oriented Computer Science student with a strong foundation in programming, particularly in C++, and a keen interest in software development. I have worked on practical projects involving frontend and backend technologies, which has helped me develop problem-solving skills and a good understanding of real-world application development. I am eager to start my professional career in a challenging environment where I can apply my technical skills, learn from experienced professionals, and contribute effectively to organizational goals. My aim is to continuously grow as a developer while delivering high-quality and impactful solutions.

KEY EXPERTISE

Data Structures and Algorithms Object-Oriented Programming (OOP) HTML CSS JavaScript React.js
Git and GitHub Java

EDUCATION

Sagar Group of Institutions - SISTec B.Tech. - Computer Science & Engineering - SISTec GN CGPA: 6.79 / 10	2023 - 2027
S.k College, Thathia, Rosera, Samastipur, Rosera 12 th BSEB Percentage: 64 / 100	2021
Saraswati Shishu Mandir, Keshawnagar, ward no 3, Rosera, Samastipur, Bihar, Rosera 10 th CBSE Percentage: 68.80 / 100	2023

PROJECTS

PlantGuard – AI-Based Crop Disease Advisory System

Team Size: 4

Key Skills:

React.js Flask Python Firebase Responsive Web Design Google Search Integration Git & GitHub
Problem Solving

Built "PlantGuard – AI-Based Crop Disease Advisory System", a smart web application that helps users identify plants, detect diseases from images, and get proper treatment suggestions. Developed the frontend using React and Tailwind CSS and handled backend development with Flask and Python. Integrated AI models, Firebase Authentication, Firestore, and Google Search to provide real-time plant analysis, detailed recommendations, and user history tracking.

AI-Based Smart Project Task Distribution System

Team Size: 4

Key Skills: HTML5 Bootstrap CSS Javascript MongoDB Python Flask Machine Learning

Developed an AI-based Smart Project Task Distribution System that helps organizations manage projects, employees, and task assignments efficiently. Built separate modules for Admin, Manager, and Employee operations, including project management, employee skill tracking, and progress monitoring. Implemented AI-driven skill analysis to automatically assign tasks based on employee expertise and project requirements. The system also tracks task completion status, calculates project progress, and provides real-time monitoring through interactive dashboards.

ASSESSMENTS / CERTIFICATIONS

Frontend Web Development

Provider: Infosys

Key Skills: HTML5 CSS Javascript

Completed Infosys Frontend Web Development certification, gaining skills in HTML, CSS, JavaScript, and responsive web design.

CCNA: Introduction to Networks – Networking Academy

Provider: Cisco

Key Skills:

Computer Networking IP Addressing (IPv4 & IPv6) Router & Switch Configuration OSI Model & Ethernet Protocols

Successfully completed the CCNA: Introduction to Networks course from Cisco Networking Academy. Gained foundational knowledge of computer networking, including IP addressing, router and switch configuration, Ethernet protocols, OSI model concepts, network security practices, and troubleshooting connectivity issues in small networks.

SEMINARS / TRAININGS / WORKSHOPS

C and C++ Training Institute Name: Sagar Institute of Science & Technology

Key Skills: C C++

Completed C & C++ Training Program conducted by SISTec, gaining knowledge of programming fundamentals, data structures, and object-oriented concepts.

MERN Full Stack Web Development

Institute Name: Sagar Institute of Science & Technology

Key Skills: MongoDB Express.js React.js Node.js HTML5 CSS Bootstrap Javascript Hosting

Completed training in MERN Full Stack Web Development, covering frontend and backend web application development using MongoDB, Express.js, React.js, and Node.js. Gained hands-on experience in building responsive web applications, REST APIs, database integration, authentication systems, and full-stack project development.

EXTRA CURRICULAR ACTIVITIES

- Explored new technologies and frameworks through self-learning

PERSONAL INTERESTS / HOBBIES

- Learning New Technologies
- Watching Tech Tutorials & Podcasts
